ELECTRODRIVE TUG MINI

The unique battery powered Electrodrive Tug Mini assists in the movement of your existing manual Laundry or Food Handling Trolleys. The Tug Mini simply hooks on to your existing trolley converting your heavy trolley into an “easy to move” motorised assembly. Productivity is greatly increased, and back or shoulder strain is eliminated.

Features include: -

- 24Volt DC power.
- Variable speed drive unit.
- Electro-magnetic park brake.
- Ability to easily manage a 500kg trolley.
- Tiller handle steering that folds up to reduce space in lifts.
- programmable motor controller
- automatic battery charger

The Electrodrive Tug Mini allows one staff member to effortlessly move heavy trolleys:

- through wards, and long corridors,
- up and down ramps,
- over carpets, vinyl or concrete floors,
- on and off lifts,
- around tight corners.
